

Invitation to take part in an online focus group to shape Newcastle's SEND Strategy

What are the focus groups for?

Partners in Newcastle are developing a new Local Area SEND Strategy and they want to hear the views from a wide range of stakeholders.

Who is running them?

The Council for Disabled Children (CDC) have been asked to run the sessions so they are independent and provide an open space for parent carers to share their views. The sessions will be led by CDC staff.

What if I can't attend a focus group?

You can still contribute by completing this survey:

<https://iassn.onlinesurveys.ac.uk/newcastle-parent-carer-send-strategy-contribution>

If you are unable to complete the survey, we will be arranging a limited number of 1 to 1 phone calls between parent carers and a CDC representative.

If you would like to give your input that way, please get in touch with Miry via email – mmayer@ncb.org.uk.
